

Grown in the Nordics, Made in Britain

Metsä Tissue is planning to build a state-of-the-art tissue paper mill in the UK

The mill will create hundreds of local jobs and boost the UK's self-sufficiency in essential tissue products using raw materials from the sustainably managed Nordic forests.

- **Several £100s of millions** investment in UK industry
- **400+ local jobs** with significant additional employment across the supply chain and local economy
- **200 acre site** in Goole, East Riding of Yorkshire
- **240K tonnes** of tissue paper production per year when the facility is fully operational
- **30%** increase in self-sufficiency by replacing imports with locally made products
- **2030** goal of fossil-fuel free production and fully fossil-fuel free raw materials

Who we are

www.metsagroup.com/metsatissue

Metsä Tissue creates a cleaner everyday life. We are one of the leading tissue paper suppliers in Europe to households and professionals, and one of the leading greaseproof paper suppliers globally. We employ around 2450 people across production units in five countries,

Metsä Tissue is part of Metsä Group. Metsä Group has been present in the UK for over two decades, supplying wood for the construction, industrial, and distribution sectors. This planned investment further cements a long-term commitment to UK industry, as the company has also been supplying the professional tissue market in the UK with the Katrin brand for almost 30 years, giving them a strong foothold in the UK tissue market.
